Probing Questions

Why Ask Probing Questions?

- To gather detailed information for effective problem-solving.
- To clarify the customer's needs and preferences.
- To make sure you and the customer are on the same page
- To ensure the best solution is provided.

Examples of Probing Questions:

- Can you tell me which channels are giving you poor reception?
- What specific error message are you seeing on TV Screen?
- Just to be on the same page, you can't find your router's package and the sticker on the back?
- Could you confirm if the issue occurs on all devices or just one?
- When did you first notice the slow speed?
